

Product Datasheet

Volcano3G® RT-PCR Probe 2x Master Mix #6101

Product Name	Volcano3G® RT-PCR Probe 2x Master Mix
Catalog Number	#6101
Description	Volcano3G® RT-PCR Probe 2x Master Mix has all necessary components for sensitive and reliable RT-qPCRs. It includes an aptamer-based fast-start formulated enzyme blend of a robust Taq DNA polymerase and an engineered thermostable Volcano3G® DNA polymerase with reverse transcriptase activity. With the combination of optimized reaction buffer, ultrapure dNTPs and a blue stain for visualization, Volcano3G® RT-PCR Probe 2x Master Mix reduces the need for sample extraction and sample lysis. Volcano3G® RT-PCR Probe 2x Master Mix enables amplification of RNA target sequences with quick and easy PCR protocols, even including "zero-step" amplification. For more information, please check : Volcano3G® RT-PCR Probe 2x Master Mix
Tested Applications	End-Point, Real-Time
Brand	myPOLS Biotec
Storage	-20°C
