

# Safety Data Sheet

## 1. Product and company name

Product Identifier:	Gelacell (Product Code: GC0801RN-CC06/12/24-B) PCL:PLGA, fibrous scaffolds, placed in polystyrene well plate.
Manufacturer:	Gelatex Technologies OÜ Mahtra 30a, 13811, Tallinn, Estonia
Recommended Use:	Research on cell culture and its related applications.
Restriction on Use:	Not for use other than recommended. Not for use in animals or humans. Not for use in clinical, diagnostic, or therapeutic procedures.

## 2. Hazards identification

GHS classification and label elements		
Hazard statement:	Non-hazardous	
Hazard pictograms:	Not classified as hazardous	
Signal word:	Not classified as hazardous	
Other Hazards		
Inhalation:	None related to humans or the environment.	
Skin Contact:	None in dry conditions. Molten conditions may cause slight irritation.	
Eye Contact:	May cause slight mechanical irritation.	
Ingestion:	No effect known or anticipated.	

# **X** Gelatex

#### 3. Chemical characterization:

Name	Polycaprolactone (PCL)	
CAS-No.	24980-41-4	
Name	Poly (lactic-co-glycolic acid) (PLGA)	
CAS-No.	34346-01-5	
The PCL:PLGA scaffold is produced by Gelatex Technologies and placed in Polystyrene well plate.		
Name	Polystyrene (PS)	
CAS-No.	9003-53-6	

The well plate is made of polystyrene and was commercially purchased.

#### 4. First aid measures

General information:	No special measures required. In case of emergency consult a physician and show this safety data sheet to the doctor.
After inhalation:	Supply fresh air. Gargle with water to clear the mouth and throat. Blow nose to evacuate dust.
After skin contact:	No effects anticipated. Any irritation washes off with soap and water.
After eye contact:	Remove contact lenses (if any). Flush the eyes with water until irritation subsides.
After ingestion:	May be temporarily irritant, emergency procedures normally not required.
Medical attention:	No information available; for any adversity contact general physician.

## 5. Firefighting measures

Suitable fire extinguisher:	Water powder foam CO <sub>2</sub> and sand. Fire-fighting measures should be suited to the surroundings.
Flammable properties:	Can burn in fire releasing toxic vapors.
Hazardous combustion:	Toxic fumes of CO, CO <sub>2</sub> , NO, NO <sub>2</sub> , RCHO. In case of decomposition flammable gasses can result from smoldering.
Special protective equipment for fire-fighting:	As in any fire wear self-contained breathing apparatus pressure-demand and full protective gear.

#### 6. Accidental release measures

Personal precautions:	No special measures or requirements. Good hygiene practice.
Environmental precautions:	Nondegradable, dispose according to section 13.
Clean-up procedures:	Dry sweeping or vacuum-cleaning to avoid airborne dust. Rest can be flushed with water.
Additional information:	No hazardous material is discharged.

# 7. Handling and storage

Precautions for Safe Handling	
Safety Information:	Avoid creating airborne dust formation.
Information to fire and explosion protection:	In case of airborne dust use aspiration. Not self-igniting and explosive.
Additional Information:	None.
Gloves material:	Gloves required due to its usage in aseptic conditions; any smooth texture gloves are preferred like Nitrile gloves.
Conditions for Safe Storage	
Storage Class	None

itorage Information:	Store in a dry environment. Normal room temperature.
----------------------	--

## 8. Exposure controls

Maintain general industrial or laboratory hygiene practices when using this product.	
Respiratory protection:	In case of airborne dust, use a mask.
Eye protection:	Protective glasses recommended.
Skin protection:	None.
Hand Protection:	None. Wear gloves as recommended.

#### 9. Physical and chemical properties

Appearance:	Physical state:	Fibrous material and solid
	Colour:	White
Odor:		Odorless
Odour threshold	:	No data available
pH:		7.4 – 7.5
Melting point/ra	nge:	60 °C
Boiling point/rar	nge:	No data available
Flash point:		>110 °C
Flammability:		No data available
Ignition temperature:		No data available
Evaporation rate		No data available
Lower explosive limit		No data available
Upper explosive limit		No data available
Vapor density (air=1)		No data available

Decomposition temperature:	Not determined.
Self-igniting:	Product is not self-igniting.
Explosion hazard:	Not an explosive.
Solubility:	Not soluble in water.

## 10. Stability and reactivity

Stable when stored under proper conditions.	
Hazardous products of decomposition:	No data available
Hazardous decomposition:	Heating to decomposition releases toxic fumes of carbon monoxide, carbon dioxide, and aldehydes.
Reactivity / Incompatibility:	Avoid contact with any oxidizing agents.

## 11. Toxicological information

Toxicity:	No hazards to be expected.
Aspiration:	No data available
Skin contact:	No data available
Eye contact:	No data available
Ingestion:	No data available

## 12. Ecological information

Ecological toxicity	
Fish toxicity:	No data available.
Aquatic invertebrates:	No data available.
Aquatic plants:	No data available

Persistence and degradability:	Product is not biodegradable.
--------------------------------	-------------------------------

## 13. Disposal considerations

Material / Mixture:	Disposal according to local regulatory guidelines.  Dispose in biohazard bag after cell culture and related studies.
Packaging:	Non-contaminated packaging can be sent to recycling in compliance with national regulations.

## 14. Transport information

Not classified as dangerous goods.

## 15. Regulatory information

Classification and hazard	No hazard pictograms and signal word.
identification of product:
